DATE FOR TRIAL SET

Battleship Louisiana Leaves Ship-
yard on December 9

COURSE NOT YET SELECTED

Crew Which Takes the Virginia Up

Coast Will Man the Louisiana Two

Weeks Later—Local Yard May Win
Building Race After All.

It was announced yesterday that the battleship Louisiana, under construction at the plant of the Newport News Shipbuilding and Dry Dock Company, will be given her official standardization trial over either the Rockland, Me., or the Provincetown, Mass., standardization courses on December 12 and her four hours' run at sea under forced draft the following day, December 13. The officials of the local shipyard have the right to choose over what standardization course they will try the Louisiana, but up to this time they have made no decision in the matter.

The Louisiana will leave the shipyard on her first sea voyage on December 9, just two weeks after the battleship Virginia returns to this port after her official trial. Practically the same crew that takes the Virginia out on her trial will man the Louisiana when she leaves for New England. Captain W. G. Melvin, local agent for the Seaboard Transportation Company, probably will command the vessel and he may pilot her during her official trial.

The Louisiana is being built in competition with the battleship Connecticut, at the New York navy yard, and although that vessel is now, in point of time, slightly over one month nearer completion than the local built ship, she will not be given her trial trip until the middle of January. It is believed that the navy department will hold the ship back until after the Louisiana's trial in order to find out just about what the Connecticut will be capable of doing on her trial.

It is expected that the Louisiana will be commissioned about the time that the Connecticut is given her trial and in that event the local yard will win the great battleship building race against the navy department both in time and cost. The local yard is greatly handicapped in the race, it is true, as the New York navy yard is building only one ship, the Connecticut, while there are eight vessels under construction here.

Captain Conden, who has been appointed commander of the Louisiana, will arrive in this city in a short time to watch the finishing touches on the ship. He probably will go on her when she is given her official trial trip.

SERVICES IN THE CITY'S CHURCHES

A SUN BATH.

It is a Potent Factor in the Cure of
Any Disease.

There is no disinfectant made by man that can compare with the sun's rays in effectiveness.

A sun bath is a most potent factor in the cure of any disease. After one's skin becomes accustomed to the direct rays of the sun one may lie in the sunshine for hours at a time with great benefit, but at first the exposure should be of only a few minutes' duration at one time. These short periods, however, may be repeated several times a day. The best results are obtained by exposing the bare skin of the whole body except the head to the direct rays of the sun. Consequently a cot placed in the bow window of an upper chamber is an ideal place for a sun bath, provided that the air in the chamber is absolutely fresh and pure.

To sit on the porch in the sun is very beneficial, even if one must be so warmly wrapped up as to make it difficult for the sun's rays to penetrate to the skin.

To lie on the grass in the sun is better still—on the grass with only a blanket between the invalid and the healing powers of mother earth.

The patient's head should not be exposed to the direct rays of the sun in any case, and a sun bath should be followed by a cool sponge bath when possible. —Maxwell's Talisman.

Many a Newport News Citizen Knows
How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Newport News. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following extracts:

W. F. Hopkins, grocer, corner of Jefferson Avenue and Twenty-fifth St., says: "I have the best of reasons for forming a high opinion of Doan's Kidney Pills. They were recommended very highly for backache in a newspaper I read and I went to Stearnes' drug store for a box and commenced the treatment. It was very satisfactory and very quickly and thoroughly stopped the dull aching in the small of my back which had annoyed me for some time. I consider this remedy one upon which the public can depend."

For sale by all dealers. Price 50c. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.
